The Medical Staff database is updated frequently online. Go to www.nyhq.org and in the Find a Doctor section, select “print on demand” for the most current directory.
INTRODUCTION

The medical staff of New York Hospital Queens continues to grow. More than 1,600 physicians, dentists, and podiatrists hold New York Hospital Queens credentials. One of the many benefits of joining the NYHQ medical staff is inclusion in a dynamic referral service that is available to the public as well as the physician community. The service includes a 24-hour toll free phone center and an online directory.

PHONE REFERRAL SERVICE - TOLL FREE 1-800 282-6684

The NYHQ phone referral service is available 24 hours a day, seven days a week. Callers receive information from live operators in English, Chinese (Mandarin and Cantonese), Spanish, Korean, Greek and Russian. The toll free phone number is included in the hospital’s marketing and communications. Each year the service handles upward of 7,000 calls.

A caller can request information on a specific physician, or obtain a customized referral to a physician that offers services the caller seeks. Referrals may be customized by specialty, geography, and several other criteria. Each request provides a caller with up to three physician names randomly generated from all those that meet the requested criteria. When a potential patient is given a physician’s name and practice contact information, the physician receives a letter of notification. This notification letter allows the physician to proactively contact the potential patient if they wish to do so.

For Medical Staff:
The physician information in the phone referral directory comes from a database maintained by the hospital’s credentialing office. This database and the phone referral service are updated regularly to add newly credentialed medical staff.

A physician may opt-out of inclusion in the phone referral service. Please call the Public Affairs & Marketing Department at 718-670-1065 to provide a correction or to opt-out.

ONLINE DIRECTORY

The hospital web site, www.nyhq.org, is available in English, Chinese, Spanish and Korean, 24 hours a day, seven days a week. In the “Find a Doctor” section, there are several ways to obtain information about a specific physician, and to search for physicians that meet certain criteria.

The directory you are reading now is the published version of a “print-on-demand” physician directory that is stored on nyhq.org. As a service to the community, as well as our medical staff and medical practices in the area, we print and distribute this entire physician directory annually. The online version of this directory will always contain the most current information. Anyone can create a customized directory based on medical specialty or other criteria, and anyone can select and print specific information for use in making an appointment. The instructions are found on nyhq.org.

For Medical Staff:
Updating Information. The profile information found in the hospital’s online directory is supplied by a database managed by the New York Hospital Queens Medical Staff Society. Each physician controls the level of detail in his/her profile. A profile can be updated by going to www.nyhqcme.org/login.asp, and typing a username and password. For username or password, call the NYHQ Medical Staff Office at (718) 670-1419. Updates will be reflected on the Medical Staff Society Web site and will appear on www.nyhq.org within 24 hours.

Adding a Photo to a Physician Profile. Public Affairs and Marketing offers free photo sessions for medical staff at least twice a year. Sessions are announced in INSIGHT weekly and by the Medical Staff Society office. To submit a photo, please contact the Division of Public Affairs & Marketing at (718) 670-1065.
Physician Relations liaisons are available to meet with you and can provide information about all NYHQ programs and services. They can handle any concerns, and facilitate introduction to new colleagues. To reach our Physician Relations Service, please call (718) 661-8714.

Representatives for NYHQ Diagnostic Laboratories (formerly Charter Diagnostic Labs) are available to help practices establish a convenient account, and can help your practice get the most benefit from the program. To reach a Diagnostic Labs representative, please call (718) 670–2574.

The hospital web site, nyhq.org, contains information on most clinical programs, downloadable electronic versions of enduring collateral, and important news about programs and services. We frequently add new features to the web site to improve access and convenience. One of the newest features is access to the physician portal (Allscripts), which is available for an online view of inpatient electronic health records. This area is password protected, if you need your password information or assistance with accessing the portal, contact (718) 670-1709. Access to electronic health records for patients in the emergency room and our ambulatory care centers is planned to start in 2012. Other tools include online bill pay and the launch of a mobile version of the site. If you have an idea or a question about the web site, please contact Beth Granger, web manager, Public Affairs & Marketing, at webmanager@nyhq.org or call (718) 670-1065.

Howard Nass, MD
76-01 113th Street
Suite MS
Forest Hills, NY 11375
Phone: 718-520-1070
Specialty: Pediatrics
Certifications: Pediatrics
Medical School: SUNY Downstate Medical Center
Residency: Long Island Jewish Medical Center
Additional Information: -Our office provides regular well child care visits involving anticipatory guidance, physical and developmental growth and maturation; and vaccination; birth through age twenty. -Doctor Nass is committed to providing the highest level of pediatric care, combining expert training, the latest medical technologies and over 25 years of experience serving the community. We strive to partner with you as a concerned and dedicated parent to maximize your child’s health potential both physically and emotionally. -We strive to manage sick patients in our office rather than transferring them to emergency rooms. -The advances in antibiotic use during this century have ushered in many improvements in quality of life and cure rates, but the overuse of antibiotics remains a major health problem. When overused, antibiotics are nothing more than expensive and glorified poisons. We are proud that our patients have some of the lowest rates for hospitalization and surgery. -We are proud to employ an advanced and secure Electronic Health Record system. Our patient portal gives patients in our practice the opportunity to use the world wide web to track their health through our office. -We participate in the New York Vaccines for Children (VFC) program for those without insurance coverage for vaccines. -Our office staff is fluent in Russian and provides translation for Doctor Nass when necessary. Doctor Nass speaks both English and Hebrew.
